## RESTORATION OF FAIRHAVEN LAKE –PROCUREMENT OF CONSULTANTS

The restoration of Fairhaven Lake and Gardens and the replacement sea defences at Fairhaven Lake and Church Scar is one of the largest infrastructure projects facing the Council over the next few years. The projects are inextricably linked as the replacement sea defence forms the outer perimeter of Fairhaven Lake.

The Environment Agency have recently confirmed that funding for the replacement sea defences at Church Scar and Fairhaven has been identified within their indicative programme for the North West 2016-2019.

The Council has applied to the Heritage Lottery Fund (HLF) under the Parks for People initiative for a 1<sup>st</sup> round development grant of £236,834 to work up detailed proposals, which will form the basis of a future larger 2<sup>nd</sup> round application.

The Council's 1<sup>st</sup> round application will be presented to the Heritage Lottery Board on the 23<sup>rd</sup> June 2015 and a decision is expected around this date. If successful, the Council will have 12 months to prepare the 2<sup>nd</sup> round application.

The table below lists the various professional disciplines involved in the development phase should the Council be successful in the HLF bid. In the meantime [JLA Consulting](#) (which has experience in the restoration of historic parklands) has been appointed to manage and oversee the project and to commence procurement of the individual disciplines shown. Formal appointments would only take place once the grant was confirmed.

Procurement of consultants/contractors for the replacement sea defence project will be the subject of a separate report to the Operational Management Committee in due course.

Professional discipline	Consultant/agent procured
Project management	JLA Consulting
Architectural design services	Procurement underway
CDM <sup>1</sup> Coordinator	Procurement underway
Landscape Architect design services	Procurement underway
Mechanical & Electrical Engineer	Procurement underway
Structural Engineer	Procurement underway
Quantity Surveyor	Procurement underway
Activity plan	Procurement underway
Management and maintenance plan	Procurement underway
