<b>Period this report covers (date):</b>	June 2016 only
<b>Name of Outside Body:</b>	Lancashire Health and Wellbeing Board
<b>How often does the organisation meet? And how often have you attended?</b>	I've only been to one as I came onto this half way through the year. Another Board will be in September which I will be able to report to my colleagues more fully. And 4 times a year unless urgent business needs a full Board
<b>Key issues arising for Fylde Borough Council</b>	On the minus side --Supported Living grant very much reduced for many residents in Independent Living (sheltered housing). On the plus side-- grant monies for more Occupational Therapists (OT) to access residents that need Disability Aids ie---walk in showers--ramps--stair lifts through FBC AND "our "partners.

<b>In the light of these meetings, is it worthwhile for the Council to continue to have a representative/representatives on this body?</b>	Yes
<b>Any further comments?</b>	There is a FYLDE AND WYRE HEALTH AND WELLBEING BOARD that I think could be amalgamated. As the LANCASHIRE BOARD is really having input from the rest of Lancashire so therefore Fylde etc is never really discussed.  As we have a representative on this local Board --need to join together?

<b>How often does the organisation meet? And how often have you attended?</b>	Meets every 6 months I have attended all the meetings
<b>Key issues arising for Fylde Borough Council</b>	<p>The meeting was characterised by two presentations</p> <p>1..AP 1000 is a new breed of pressurised water reactors designed and sold by Westinghouse electric. The first one is being built in China and should be operational in a couple of years</p> <p>2..there was a presentation of Westinghouses proposed new generation of small modular reactors...This is still at the development stage and would hopefully put the uk at the forefront of nuclear development again . Approximately 400 would be planned for the uk meeting some 10 % of the country's energy supply. Westinghouse are looking for development funding from the government</p> <p>Most of the other issues raised at the meeting were concerned with safety,and coordinated responses from on and off the springfields site..in a major incident up to 30 agencies could be involved</p>

<b>How often does the organisation meet? And how often have you attended?</b>	Once a month,I have missed one
<b>Key issues arising for Fylde Borough Council</b>	<p>Good news to start with...The Fylde is the second safest place for all crime in the county.</p> <p>Crime on the whole has remained low,however there has been a spike in the figures attributed to burglaries and theft.The police do have suspects for these crimes in Kirkham,Warton,Freckleton,and Lytham St Annes.</p> <p>Slightly worrying is the increase in substance abuse such as smoking,cannabis and alcohol in the young,and in particular "spice" a legal high cannabis substitute .</p> <p>There will be later this year information supplied to officers and councillors on crime and terrorism prevention.</p> <p>A government computer programme designed to integrate police force responses,so they are all singing from the same hymn sheet has had to be delayed because of technical problems..</p> <p>There were 52 incidents of Fly tipping over this period..</p> <p>The Inspector Susan Horn also indicated how useful social media was in solving a number of crimes.</p>
