

Planning Committee - 6 September 2023

Late Observations

Agenda Item 5 – Morgan and Morecambe Offshore Wind Farms

Officer Comments

In recognition of the level of public interest that is now being raised by this proposal officers believe that it would be helpful for those responsible for the scheme to make a presentation to members of Fylde Council to help inform them of this proposal in more detail, and to hear any initial feedback that Members may have on behalf of their constituents.

This point was not picked up in the recommendation that is included in the agenda papers and so an additional recommendation is suggested to cover it.

Additional recommendation

3. That the development team for the Morgan and Morecambe Offshore Wind Farms Transmission Assets scheme be invited to hold a briefing session for Fylde Council's elected members.
