3nr Rosmarinus officinalis
- To the **central planting bed**. Supply and plant;  
2nr Cordyline australis  
Allow for all excavated and waste material to be taken off site to an approved landfill site.

Project Aims

- To reinforce the rural character of Staining Village Centre.
  - To create safer pedestrian movement/connectivity
  - Create a 'greener' environment, which connects with the surrounding countryside
- Objectives**
- To provide street furniture that is distinctive and colour coordinated to reinforce the local character and the public realm.
  - Improvements to paved areas to create a palette of materials for forecourts and footways and to reflect the character of the buildings and reinforce the village identity.
  - 'Greening' of the local environment where feasible, creating tree-lined boulevards to entry points into the village and the centre and maintenance and enhancement of hedgerows.
  - Build on the 'Floral Theme of Staining' with provision of hanging basket columns, planters and planted areas.
