REPORT

1. The Council has a duty to manage its assets and capital resources in order to best deliver its objectives as set out in the Corporate Plan.

2. The prioritisation of capital investment according to a well-defined and rational approach is especially important in helping to prioritise resources when the demand for such resources exceeds the total of the resources available. This process is defined within the Council's Capital Strategy, the latest revision of which was approved by Council on 11th April 2016.
3. A key element of the prioritisation process, as described within the Capital Strategy, is the consideration of capital bids by the Council's Programme Committees. The capital bids for 2019/20 received to date which fall within the terms of reference of this committee are shown at Appendix A to this report. The Committee is requested to consider and prioritise the capital bids relevant to this Committee's terms of reference.
4. The role of the Council's Programme Committees in the consideration and prioritisation of capital bids is also referenced within the Timetable for Developing Budget Proposals 2019/20 report which was approved by the Finance and Democracy Committee at the meeting of 24th September 2018.
5. Once capital bids have been prioritised by each programme committees, the Budget Working Group will review the outcome of the deliberations of programme committees and will make recommendations to the Finance and Democracy Committee via an updated Medium Term Financial Strategy (MTFS) report on a proposed budget package which will include capital budget proposals.
